Cordless Impact Wrench

Two batteries • Charger Stand • Carrying case
in retail packaging

Part # SPIW

Weighing only 5.9 lbs., the Cordless Impact Wrench provides power in a lightweight design. Wrench features a variable speed switch to provide the option of increasing and decreasing speed based on trigger pressure. Above the trigger switch is a selector that allows the wrench to work in a forward or reverse direction. And for those hard-to-see areas, a bright LED light illuminates when the switch is depressed.

To protect against overheating and ensure long lasting life, the Cordless Impact Wrench is equipped with a cooling fan motor.

Specs:
- Voltage: 18 VDC
- No load speed: 2,100 rpm
- Impact frequency: 3,000 blows per minute
- Impact torque: 206 ft. lb.
- Input: 120v/60Hz
- Battery cell type: Ni-Cd
- Charging time: 90 min
- Weight: 5.9 lbs.
