Two batteries • Charger Stand • Carrying case  
in retail packaging

### Specs:

- Voltage:** 18 VDC
- No load speed:** 2,100 rpm
- Impact frequency:** 3,000 blows per minute
- Impact torque:** 206 ft. lb.
- Input:** 120v/60Hz
- Battery cell type:** Ni-Cd
- Charging time:** 90 min
- Weight:** 5.9 lbs.

### Part # SPIW

Weighing only 5.9 lbs., the Cordless Impact Wrench provides power in a lightweight design. Wrench features a variable speed switch to provide the option of increasing and decreasing speed based on trigger pressure. Above the trigger switch is a selector that allows the wrench to work in a forward or reverse direction. And for those hard-to-see areas, a bright LED light illuminates when the switch is depressed.

To protect against overheating and ensure long lasting life, the Cordless Impact Wrench is equipped with a cooling fan motor.
